Overview

The NEBOSH Certificate in Fire Safety and Risk Management has been designed for managers, supervisors, health and safety representatives and those embarking on role or career with fire safety responsibilities. It provides participants with the knowledge and practical skills to conduct and review fire risk assessments, fire preventive and protective measures within most low risk workplaces.

On completion of the course, delegates will be able to understand and interpret fire safety legislation, implement an effective fire safety management system and control workplace fire and explosion hazards. As a part of the course, participants learn how to conduct effective fire risk assessments and maintain essential fire safety documentation, as well as how to develop a fire emergency plan.

Target Audience

Managers and supervisory staff who need to ensure that their organisation meets its responsibilities under fire safety legislation.

Our course which leads to this qualification equips holders to carry out fire risk assessments of most low risk workplaces and to identify the range of fire protective and preventative measures required. It is therefore suitable for people moving into fire safety adviser roles.

The syllabus is based on National Occupational Standards in Fire Safety at level 3, which has common units with the Emergency Fire Services Na-

Syllabus

Unit NGC1: Management of Health and Safety:

- Health and safety Foundations
- Health and safety Policy
- Organising for health and safety - culture
- Planning for health and safety - risk assessment/control
- Measuring, audit and review
- Incident and accident investigation recording and reporting

Unit FC1: Fire safety and risk management

- Managing fire safety
- Principles of fire and explosion
- Causes and prevention of fire
- Fire protection in buildings
- Safety of people in the event of a fire
- Fire safety risk assessment

Unit FC2: Practical Assessment of Workplace

- Fire safety practical application

1. NEBOSH recommends that participants allow additional time for private study. Our tutors will provide direction on the requirements.
2. We can also provide tuition and examination for unit NGC1 to those who require it – please contact us for further details.
